## Bigger screens Better ideas

**Fonix are a team of experienced professionals in big screens, video production and event AV.**

We offer an end-to-end solution, from concept, content creation and consumer / brand interaction through to innovative screen design, technical expertise and seamless delivery of spectacular solutions.

With a showroom and offices in central London and the low cost base of large warehouse facilities on the South Coast of the UK, we are competitive, agile and dynamic.

All screen systems and hardware are fully owned by the company, enabling a lean, flexible business model. Fonix works regularly throughout the UK and further afield in Europe, the USA and the Middle East.

Technical and creative in equal measure, we offer a uniquely all-encompassing solution - from concept and software through to delivery and hardware, with the option of offering selected components of the process where only individual specialist services are required.

We love to push boundaries and provide all-in-one creative solutions worthy of world class brands.

Don't think big  
Think epic

**Fonix are a trusted world-leading supplier of bespoke LED screens.**

We supply structures, sets, staging, lighting, video production, event TV and technical crews to many of Europe's events, festivals, awards and shows.

We supply high resolution indoor panels from 3mm to 10mm pitch, and weather-proof outdoor screens from 4mm to 20mm pitch. And, as the only European suppliers of 4mm flexible tile LED screen technology, we can provide an innovative solution tailored to your precise requirements.

## LED screen hire and sales

**For long-term LED solutions, Fonix has a vast amount of screens available. We have the expertise to consult with you to provide unbiased advice about the best way forward and we can provide you with ongoing technical support.**

LED screens are now an essential part of events, trade shows and conferences, forging powerful, closer connections between the audience and the action on the stage. Large screens provide an immersive audience experience, ensuring that everything that is happening on stage can be seen close-up from all areas of the arena.

Fonix have provided outdoor high resolution screens at most of the well-known festivals throughout the UK, ranging from 16 square metre to 60 square metre screens.

## Video production

**Expert production for all video requirements, from corporate video production to live streaming events.**

Our expertise in filming and video production ensures that we can supply your organisation with high quality, on-brand business videos. We are experts in creating professional content for corporate communications with high quality production, innovative techniques and ground-breaking graphics.

We can provide you with a live platform to stream your events online through Livestream, YouTube or embedded in your own website. Our ongoing support means that you will be able to ensure online viewers get the best experience possible from your broadcast while the comprehensive analytics provided mean that you receive a clear understanding of your audience.

With our own content team we can create content from scratch or re-purpose your content for maximum impact on our screens.

Our screens can show live and pre-created feeds, along with social media streams. Updated at the click of a button, our screens are also frequently used as high impact digital signage.
